

MARKEM Corporation made a change in 2002 in the way it produces the Certificate of Compliance (C of C) for its products.

A Certificate of Compliance is now on the Packing List of every order.

MARKEM Corporation's efficiency has improved with this method and we hope our customers see the benefit in their own process and feel confident that MARKEM Corporation is continually looking for better ways to do things and keep costs down.

The Packing List/Certificate of Compliance is produced electronically and is valid without a signature. The fact that the Certificate of Compliance bears the Markem logo is your assurance that we continue to stand behind what we sell.

For specific shelf life information on Markem inks, refer to [Ink Tech Data Sheets](#).

If your Quality System or customer specifications require a signature on the C of C, consider this letter as proof of signature and keep it in your files for auditing purposes.

MARKEM Corporation values you as a customer and strives to meet your needs and expectations. Keeping in step with the marketplace is important to us and continuous improvements, such as this, helps us stay competitive while maintaining a high level of Quality.

Sincerely,

A handwritten signature in black ink that reads 'Mark Fish'. The signature is stylized and somewhat cursive.

Mark Fish
Director - Supply Chain
